

Toyota Hiace Granvia Conversion

Vehicle Specification

Length: 4.71m/15ft 5.5in

Width: 1.80m/5ft 10in

Height: 2.10m/6ft 10in (*elevating roof*)
2.55m/8ft 4in (*hi-top roof*)

Engine: 2.7 petrol or 3.0 turbo diesel

Specification: As standard; ABS, twin airbags, air-conditioning, central locking, power steering, height adjustable steering, electric mirrors and electric windows, 2 wheel drive or permanent 4 wheel drive, passenger swivel seat and access from cab to rear

Information: The Toyota Granvia is basically the same as the UK Hiace Powervan except that it has a 2.7 petrol or 3.0 turbo diesel engine, automatic transmission and many more extras. The new shape Hiace Granvia is available from 1995 – 2001 and is an excellent alternative to a VW T4 or a Mercedes Vito. The Granvia is available as a 2 berth hi-top or 4 berth with Reimo elevating roof. The internal length is 250cm which is 40cm longer than a Mazda/Ford SGL and is wider at 180cm (Mazda and older Hiaces are 169cm) giving a very comfortable 6ft x 4ft bed.

Conversion Specification
